25X1

1. The Polish State Railroads (P.K.P.) received 200,000 cubic meters of new sleepers in 1952 to replace worn-out ones. This quantity of sleepers will cover replacement of old ones on 1,600 km. of permanent way. The Ministry of Forests is scheduled to furnish the same quantity to the state railroads in 1953.
2. The Sanok Railroad Car Factory (Sanok - R50/V02) produces approximately 150 refrigerator cars per annum. Up to now these cars have always been placed at the disposal of the Polish State Railroads. This year, however, on orders from the USSR, 30% of the production, i.e. approximately four refrigerator cars per month, is being sent to the USSR.
